

## SUMMARY

To leverage my skills and experience in challenging role that promotes personal and professional growth while contributing to the success of the organization. I aim to apply my expertise in problem solving, project Management & technical proficiency to drive innovative solution and achieve organizational goals.

## EDUCATION

- **BSC.Computer Science**  
VPM.RZ Shah College, Mumbai University  
2021– 2024
- **HSC**  
RA.DAV College , Mumbai University  
2020
- **SSC**  
M.V.M School, Mulund 2018

## SKILLS

- Web Development: HTML, CSS, JavaScript, Bootstrap.
- Database: SQL.
- Backend: Java.
- Tools & Technologies: Visual Studio Code, Eclipse.
- Soft Skills: Problem Solving, Leadership, Communication, Time Management.

## CERTIFICATIONS

- Certification and Courses: Java Full Stack Development using Angular - Anudip Foundation.
- Certification and Courses: MS-CIT (Maharashtra State Certificate in Information Technology).

## LANGUAGES

- English
- Hindi
- Marathi

## PROJECTS

### Project: Hostel Management System

- Developed a console-based Hibernate project with 7 entities, including Hostel, Room, Student, and Payment.
- Implemented CRUD operations with one-to-one and one-to-many relationships using Hibernate ORM.
- Designed a service layer and DAO structure to manage bookings, complaints, and payments efficiently.

### Project: Food Delivery System

- Built a Spring Boot backend application with 7 entities: User, Restaurant, FoodOrder, MenuItem, and more.
- Managed APIs for user registration, order placement, and payment integration using Postman for testing.
- Applied best practices in REST API design, with data persistence using JPA and Hibernate.

### Project: Hostel Management System

- Description: Designed and implemented a hostel management system to automate and streamline hostel operations, including room allocation, student management, and payment processing. Developed a user-friendly interface for managing hostel activities and generating reports. Enabled real-time updates and efficient data handling through integration with a MySQL database.
- Front End: HTML, CSS, JavaScript
- Back End: PHP
- Database: MySQL
- Development Tools: Visual Studio Code, Notepad
- Server: XAMPP
